Hello. Thank you for reading this. I understand that fees go up. The increase from \$75- \$200 is Quite substantial and I would say outlandish!! Most of us our independent contractors. We have No sick days, No paid vacation, No benefits.... and we are in a field where we are trying and hopefully providing Wellness for others. How are we to afford this profession if we pay out- honestly, it could be close to \$1,000 during re-new year, for our Insurance, CEU's, and this crazy fee? Wouldn't you, as our licensing board want to Support us? We are in a field of Wellness right?

I'm truly shocked by the lack of consideration LMTS have been given- now this?!

Please re-consider this increase. Please think more towards improving the resources for those of us who dedicate ourselves to this field.
