Subject: Fee increases
Date: Monday, July 2, 2018 4:33:45 PM

Hello. I am writing to you in regards to the fee increases. A 167% increase in the license renewal fee is outrageous. Then on top of that an 33% increase to CE program approval that will obviously be passed along to the therapist . CE classes are expensive as it is and now 2 fee increases. Most MT's aren't making a large income . You are hurting a lot of people. I would like detailed explanation of where this money is going and how it is being used . Please do not give the generic " increasing costs " response . We deserve to know what they are . No other industry has such fees .

Please reconsider and think about how many people you are hurting and putting in financial stress .
