To whom it may concern,

It has been brought to my attention that there is a proposal to increase the fee from \$75 to \$200. For license renewal.

I want to express my deepest concern over this fee increase. It already cost a significant amount to keep my license/CE's, ABMP etc active to stay in practice in the state of PA. Please do not chastise those of us who are trying to operate businesses that comply with all state issued regulations by increasing our fees. I already struggle to make it as an independent LMT in this state. I beg you to reconsider.

Sincerely yours,
Lela Rummel
