Ms. Wolfgang:

As a massage therapist newer to the industry, I find it very disheartening that the Board of Massage Therapy thinks increasing the biennial renewal from \$75 to \$200 is anything short of bad business practice. It is unacceptable and shows a lack of support for the hard-working therapists trying to keep this a lucrative and respectable industry. Since when it is ever appropriate to raise a fee almost triple the amount and call it an "increase"? I find it an insult to injury that the board even put this ridiculous suggestion out there when it is obvious that it will be heavily and rightly disputed.

Regards,

Lisa Hill, LMT
