To Whom It May Concern,

I have been a massage therapist for quite a few years and have found it affordable within those years to continue to with my licensure.

I do not agree nor think it's fair to raise the fee for all parts of licensure, CEU continuance, etc.

I am currently under Drs care and am in hardship right now due to amount of hours I am allowed to work, not including being able to afford the increase as it is living alone.

I enjoy my field of work and would be upset if I had to discontinue my work that I studied so hard for.

Sincerely,
Lisa Miller
