Dear Ms. Wolfgang,

I have been informed by my professional organization that the following changes have been proposed for massage therapy licensure...

application fee for initial massage therapy licensure from \$65 to \$100

approval of a continuing education program from \$65 to \$100

biennial renewal fee from \$75 to \$200

Sadly, I was not informed by the Commonwealth of PA, even though they have always managed to find me to send the invoice.

I understand the one time cost increases for initial licensure and CE program establishment, as there are administrative costs associated with setting up any endeavor and reviewing and verifying initial information.

I seriously disagree with the cost increase for renewal, which is submitted and paid for online by the therapist, in addition to the cost of financing our continuing ed.

Live better,
Nancy Chapple, LMT
