Subject: Proposed increase of by annual license for massage therapy
Date: Monday, July 2, 2018 9:47:12 PM

Sir or Madam,
I think I speak for the thousand massage therapist in Pennsylvania,
I believe the increased to be unjustified, and quite frankly ridiculous. It is hard enough to make a living doing what we love and helping people, our choice, I understand that. I can barely make ends meet as a single mom. We pay for all our CE use and while I don't have a problem with a minimal increase, no more than \$25 I think what you're proposing is at early piggish and ridiculous. I am assuming that the people that sit on this board want raises. Find it somewhere else.
Surely the person or persons that came up with this just sit behind a desk and do not use their bodies working 10 to 12 hours a day. How about thinking a little about the people that you are supposed to care about.
Taken Aback by the insensitivity,
Nancy Davis, LMT, board certified massage therapist.
