Subject: Massage therapy license increase-this is not ok!
Date: Tuesday, July 3, 2018 7:54:34 PM

My name is Sara zettlemoyer I am currently a student at bti in Wyomissing Pennsylvania and I am attending the Massage Therapy Program. I was informed today by our department head that fees and costs to maintain our license will be going up possibly. I am a single mom I am trying to put myself through school and this is not okay as much as you think that we will be making good money to keep shelling out hundreds of dollars to maintain our license when nurses and doctors and people who make a lot more money than us have to pay so little for their license it doesn't make sense and it's not right so please if you're smart and you're a government official you will not do this!!
