Dear Sir or Mam,

I'm a licensed massage therapists requesting you to please, reconsider the high cost of the new licensure fee.

While the economy is slowly improving; it has not made a positive impact on the therapists pay check.

The products, and supplies continue to increase. The cost of utilities continue to increase, yet our pay has not increased.

Now, you're suggesting a huge mark up for us as a therapists.

Please, reconsider the \$125 increase for our licenses.

Unfortunately, I feel this will only increase massage therapists to not stay license and work illegally.

I am a therapists who is staying licensed, being current with all my skills (which have increased) and now we are being penalized with this huge increase.

While Governor Tom Wolfe has requested for some licensures to have a decrease to make them more accessible, then why is our occupation being scrutinized?

While we are blessed to serve in the health field; we are in no way receiving the same salary as other medical professionals.

Thank you for seriously reconsidering this decision! Please, look out for the therapists and their families!
