Section 11(a) of the Massage Therapy Law (act) (63 P.S. § 627.11(a)) requires the Board to increase fees by regulation to meet or exceed projected expenditures if the revenues raised by fees, fines and civil penalties imposed under the act are not sufficient to meet expenditures over a 2-year period. Likewise, section 11(b) of the act requires the Board to increase fees by regulation so that adequate revenues raised will meet the enforcement efforts required under the act.

WHAT ARE THESE EXPENDITURES and why would it require an over 150% increase to take care of these said expenditures?

Where can a breakdown of these expenditures be found?

If I am funding them, I would like to know what I am funding.

Punishing us, those who follow the rules, pay money every two years, pay for our continuing education classes and work our butts off daily seems out of line to cover for your shortcomings. \$125 increase with 6 months or less notice!

I got into this business to help people and allow them to heal naturally. I did not get into this business to have to work a second job to pay for all the required classes and fees.

Please re-evaluate YOUR spending and what you are doing and NOT doing for our profession.

I do not agree with this \$125 fee increase.
