---

We have been a massage therapist for over 20 years. I am deeply grateful for an industry that lets me work at what I love but this recent increase in our licensure fee is absolutely unnecessary. I could understand a small increase even 20 or 30 percent. But the proposed amount is over 300 percent. Since most therapists make a state average of \$ 30,000 a year this is a significant amount of money.

Please reconsider this dramatic change in costs.

Thank you Tracie Pletcher
