Subject: Disagree with LMT renewal increase!
Date: Friday, July 6, 2018 12:25:11 PM

I got informed about the major increase in massage licensing renewal. I don't understand how you can more then double the increase! All us massage therapist have to spend a ton of money to keep up with our licensing and then throwing this huge increase for our biennual renewal is outrageous! I personally struggle to get the money together for everything that is required. Many other Therapist and I are extremely upset about this and don't understand how you can even make such a high increase like this at one shot. I understand that PA has one of the lowest licensing renewal rates, but it's not far to increase his this much at once. I could see doing a small increase like going from \$75 to \$100, but to jump almost 200% if absolutely absurd!
