**PA LMT License Fees Going Up**

I think a lot of older massage therapists who can't work full time anymore will seriously consider dropping their licenses. Perhaps you could have another rate for them. I myself am going to be 62 years old. I got my license in 2014. I can't work full time because of my age, but I can still do good work, and I'm getting better as well as a therapist. I have to pay my own insurance, pay for the credits and buy my own supplies where I work.

Thank you for allowing our Feedback.

Lisa Mazzanti
