#3203

Dear Regulatory Counsel,

I am strongly opposed to the proposed rate increase to renew a massage license. The proposed increase is more than double the previous fee. Massage Therapists work extremely hard for their money and do not make high incomes. In addition we must spend money to attain professional continuing education credits to be eligible to renew our license.

This rate increase represents an unnecessary hardship for hard working professionals.

Thank you for your attention to this matter,

Sincerely,

Margaretta Wilcox
