I would like to express concern of the License Renewal Increase. There is no reason for an increase of this grand scale. What is the reasoning behind the increase of three times the amount? Who proposed this amount? What good will this increase do for the profession in Pennsylvania? Where and what will this increase be used for? Maybe it is time for a change of who sits in the State Regulatory Counsel.

Appalled by the notion,

Matthew Love, L.M.T.
