Hello,

I am writing in regards to the increase of the massage therapist licensing. I agree with the increase if the money is used towards better regulation of massage therapists. There are too many "Asian" massage

spas opening in the Harrisburg area that are definitely not legitimate operations. There needs to be some type of system in place to regulate these businesses and shut them down if they are illegal shops.

I would like to know what the large increase of money is being used for.

Thank you for your time and consideration.
