Ms. Wolfgang,

The rate increases that are being proposed are crippling. I struggle to find money as it is for the required biannual CEUs. I don't make enough money to justify these increases. This would seriously cause me to consider dropping my practice entirely.

The board needs to consider what it is they are asking of us as a body. Massage therapists aren't making six figures. We're barely making enough to get by. Your proposals are outrageous. I'm asking for compassion.

Thank you for your consideration,

Barbara Darnell  
LMT, Pennsylvania
