Hi, my name is Dana Thompson. I am currently a licensed massage therapist in the state of Pennsylvania.

I have been hearing things about an increase for the fee renewal over licensure from 75 to 200. I personally find this very irrational for such an increase so quickly. I understand if you got to raise it up like 50-60 dollars but over double that's crazy and I as a single mother I'm going to find this very hard and difficult to pay that much money and I cannot afford lose my license as working as a massage therapist is my only form of income. I hope that you take everyone thoughts into consideration that this is a steep change to happen so quickly.
