I'm writing to express my concerns about Regulation #16A-724(IRRC #3203).

I feel that raising the rates for licensing is going to hurt massage therapist s that do this on a part time and even full time therapists. We pay a lot of money already just to get our CEU's along with extra money for travel and lodging accommodations.

This increase is totally ridiculous and definitely not necessary. Why do we have to pay increase rates get ceu and all those Oriental places don't have to do anything?

I hold a license in my other profession and my CEU's and biannual fees aren't totally ridiculous and totally unnecessary. Stop hurting this profession by raising rates. Do your research and make things fair for everyone and that includes the Oriental places. This is going to force good massage therapist s to quit working and helping people that need our help.

This is totally ridiculous and unnecessary, so don't do it.
