Subject: LMT Licensure fee Increase
Date: Saturday, July 21, 2018 8:57:43 AM

Please do not increase the Licensure fees for LMT'S. The costs of mandatory CEU ' S required in Pa. have already become a financial burden to many of us in the business. Since it's impractical for most LMT'S to physically carry a load of 35 - 40 hours a week treating clients that should be taken into consideration. We also have to pay for healthcare coverage out of our basically part-time job. Myself it costs me \$981.00 a month for health care. Raising the fees for Licensure is just increases the pressure on us to charge the clientele more per massage which in turn changes a genuinely excellent modality for pain & suffering into a service for the "Elite" who can afford it rather than a practical solution for the community at large.

Thank you for your consideration
