3203

It was brought to my attention by a fellow LMT that she received notice that the proposed increase is going from \$75/ 2 yr to \$200/ 2 yr. As a long standing member of the American Massage Therapy Association, I believe that is too high a cost. The purpose of licensing is to ensure that a LMT maintains certain standards in education, ethics and mandated reporting training. Those courses are costly and time consuming although necessary. Adding additional costs just to receive documentation of licensing seems excessive. I think any LMT who fulfills these requirements should not be punished with high costs.
