Hello, I am writing regarding the potential increase in the renewal fee for a Massage Therapist. I do not agree with this. We as Massage Therapist in PA mostly work part time and barley make enough money to live. We already pay enough to take the necessary continuing education classes that are mandated in order to keep our license. I think increasing the renewal fee will result in many people not renewing and finding another career/ job. Many Therapists have already expressed concern and are questioning if its really worth it. We are already a struggling industry to begin with. This just adds to the issues. I'm hoping every Massage Therapist writes in and this issue can be addressed and resolved.
