3203

I am writing to express my objection to the proposed increase in licensing fee for massage therapists. We now are required to take costly courses every two years and \$200 is unreasonable. Some of us are sole operators and will find this amount a hardship to pay on top of other expenses such as rent, supplies etc. Also we do not get paid for sick days, weather issues and other things which can impact ones financial security. I was originally in favor of a PA massage license but now have my doubts that this was a good move. I would rather spend that proposed increase on a course which would help me to better serve others than to pay this to a board.

Sincerely,
Helene Halstuch
