3203

I strongly oppose this over 100% increase in fees as it is a financial hardship for most massage therapist in PA who are already under the poverty level. It also discourages compliance with the massage therapy law, which could reduce future income. Establishments are already skirting the law by taking advantage of it's loopholes. Corporations are underpaying massage therapists. If you need income tax the large corporations who are taking advantage of young massage therapists and the malls that allow unlicensed massage.

Joel Heller, LMT
