Dear Counsel/ Board,

I understand our Massage License renewal fees are too increase from \$75 to \$200.

This is a substantial jump in price. No Licensed instructor or other LMT, that I have spoken to can tell me what the additional fee will be use for.

I spent 2hrs researching via the internet and couldn't find anything.

Therefore, I am contesting this huge jump in renewal fee, as there are no reasons listed anywhere, for this dramatic increase.

In addition, there are no LMTs on this counsel/board to address this issue for us.

This is truly Taxation(fee) without representation, as we have no persons or person to represent the Massage Therapists.

That being said, this enormous increase is very suspect and deserves to be reviewed with a valid and fair group, being transparent in the itemized reasons and uses for such increased fees.

Thus I ask, Please answer this question for me, so that I can understand how my extra \$125 and all other LMTs money is going to be used?

Yours Respectfully,  
Kathleen McLane
