---

Hello,

My name is Lara Brusch. I received my license in April of 2015. I have been hearing rumors about a license renewal rate increase for awhile now and recently received an email that it is becoming more official.

While, of course, I am not a fan of the increase I cannot argue with it. I am aware that other states charge just as much or more. My issue is that the jump is so much!

I would be more agreeable to this rate change if it were a little slower. Maybe \$100 this year then \$150, etc...

I can't say that this jump is going to keep me from renewing, it just feels too much too soon.

I thank you very much for your time and thank you for hearing me out.

Lara Brusch
