3203

please do not increase the price for the renewal fee for LMT. why is there such a big jump in price? why are we now going to be one of the most expensive licenses? why would you punish the therapists who have been doing this career for years? We sacrifice our bodies to make others feel better. We struggle to make a living already why make it worse? All your going to do is lose more therapists because they wont be able to pay for all these extra expenses. please reconsider what you are doing.
