Board of Massage Therapy

To whom it may concern,

My name is Meghan Kurtz, I have been a massage therapist for 16 years. I am writing concerning the fee increase for Massage Therapists. I understand that increases are necessary over time but I am in support over the lowest increase possible. My practice helps many and many of my clients are unable but are in need of massage on a regular basis. I serve widows who are grieving, many individuals who are going through hard times financially, individuals with anxiety and depression and many others who choose massage as an alternative or in addition to medication or surgery. I adjust my prices for those who are dedicated to a healthier lifestyle but can not afford coming in on a more needed basis (I am already working at a lower cost than most massage therapists so people can come in more often). Living in these times is hard enough and all the increases that take place makes it even harder. Thank you so much in advance for taking the time to read my comment.

Many Blessings,
Meghan Kurtz
