Dear Sir.

I am writing to you about the proposed increase in our Massage license. I feel this is such a huge increase and it's not warranted. I understand that we are under a medical license, but we are not doctors. This is too much !!! This area of the state isn't as prosperous as the other parts of the state.

And that should be recognized as a valid point. Also More CEU's need to be our area as well

Thank you.
