3203

Dear who it may concern,

In regards to Regulation #16A-724 (IRRC #3203) I disagree with the increase of the biennial license renewal fee. Going from \$75 to \$200 is an unreasonably high increase. Continuing education classes are already hundreds of dollars, along with buying liability insurance yearly. I love my career beyond words, but this increase in renewal is very discouraging when we work in a career field that is very inconsistent a lot of times. I struggle to keep my head above the water half of the year even with working 3 different massage jobs.

I understand there is also a struggle on your end, but the explanation you are providing in this letter is hard to understand and not very detailed. If prices must be raised, please consider making a smaller increase.

Thank you,
Sara Monfre
