I am writing to inform you of my strong opposition to the proposed new regulations that would increase fees for massage licensure. An increase from \$75 to \$200 is ridiculous! How is the value increasing for the therapists paying this increase?

To renew a nursing license in PA is \$65 and their earning potential is much higher.

If the idea is to increase fees to a level that will increase the amount of unlicensed therapists or decrease the number of practicing qualified practitioners, then you are on track!

In Health,

Tamara L Luffy LMT, CNHP
