Regulation No. 57-323 (#3214)
Pennsylvania Public Utility Commission
Assumption of Commission Jurisdiction Over
Pole Attachments from the Federal
Communications Commission

On September 13, 2018, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Public Utility Commission (PUC). This rulemaking amends 52 Pa. Code by adding Chapter 77. The proposed regulation was published in the September 29, 2018 *Pennsylvania Bulletin* with a public comment period ending on November 28, 2018. The final-form regulation was submitted to the Commission on October 21, 2019.

This final-form rulemaking exercises reverse-preemption of the Federal Communication Commission regulation of utility pole attachments pursuant to 47 U.S.C. § 224.

We have determined this regulation is consistent with the statutory authority of the PUC (66 Pa. C.S. §§ 313, 314, 501, 701, 1301 and 1501) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

BY ORDER OF THE COMMISSION:

This regulation is approved.

George D. Bedwick, Chairman
