Questions Re: Final-Rule Making

- 1.

3. What is meant by LOCK DOWN in the emergency plan? Will this be integrated into the
4. existing plan? Will there be requirements for Family Child Care Homes (FCCH) to have certain doors or locks to meet this requirement?

4. The emergency plan must be differentiated to meet the needs of age groups or those
5. with disabilities. Does this mean that during certification reviews we must be able to demonstrate that we have considered those needs in our plan? Will the emergency location become a part of the inspection? For example, in my FCCH, my basement is the emergency
6. location for shelter in place. Will I have to add a railing to my stairs because they are steep and I serve infants and toddlers?
