Dear sir/madam.

Please do not limit the time for my childcare..i am a single mother struggling to earn for living.i live in a small town where their isn't a lot of jobs to choose from.i have to work second shift which puts my childcare hours 1hr.over,your proposed time.this is only 1 childcare provider in this area that does late nights like this i don't want to quit my job because you want to put a limit on the hours and i don't want to go on welfare.im trying to better my self as i code.so please re consider...

Thank you..
Diana duck
Mother
