Comments entered:

I am a farmer and my Son in Law and daughter have a poultry operation on our farm, they are not a CAFO now but may be in the future, by raising these fees you are going to prevent young farmers from getting into farming and allowing our existing young farmers to expand. Farming is hard enough without permit fees getting increasingly higher each year.

We are hard working farmers that follow the law and do our due diligence in keeping our water clean. The process of getting the proper permits take so much time and you propose to make it cost even more.

We are very opposed to this drastic increase.

till later...Opposition to higher permit fees
