Subject: RE:IRRC Reference Number 3227,EPA,NDPES,Water Quality Mangement Annual Fees

WINTERMYER AUTO SALVAGE INC.
2790 Lewisberry Rd York Haven Pa 17370
717-938-2721 / 717-938-1606

Independent Regulatory Review Commission
333 Market Street, 14th floor
Harrisburg, Pa 17101

We are writing you concerning the new Tax (Fee) that is to be taking place. As a small business owner of an auto parts and recycling business, we always make sure to take the nessary actions to prevent any damage to the environment. For an example we have built another garage to processes all vehicles and to store all engines and transmission to keep them off the ground. We have also stoned our whole property where the cars sit on out in the yard. Wintermyer's has to do a semi annual water collection of the stream that flows through our yard. We also hired VET Environment Engineering LLC group to help us make sure we are doing everything we can to protect the environment. VET also inspect our facility yearly and any recommendations that are suggested we make sure to do in a timely manner. If this new fee is implemented it will be a burden on our Family owned small business along with other small businesses. This fee will also keep us from make improvements at our facility.

Thank you for you time,
Clair & Mystery Wintermyer
