Greetings,

I am writing in **support** of Regulation #16A-4633: Public Health Dental Hygiene Practitioner Practice Sites. The public health background gives you the framework to carry out planning, research and evaluations. Dental Hygiene provides the education to assess, educate and interact with patients and professionals.

As a PHDHP I have had the opportunity to work in nursing homes, and school based dental activities, but could be doing much more if the opportunity arose.

**Please vote in favor of the regulation.**

Have a great day,

Kathi
