I believe the expansion of practice sites for the PHDHP is very important. We need to help people in all areas that can not afford

to have preventative treatment or that may not be able to have a way to get to the sites that would give them the needed

treatment. They have experience, knowledge and the license to work in areas where other dental hygienist may not have the ability.

PHDHP is an essential part of the dental team that should be utilized to the fullest.

Thank you!
Sandy Yanchick
