This bill will cause our most precious individuals to receive less than the best treatment. Parents won't follow through with treatment. They will have children lost in the shuffle the way it is with administering fluoride in pediatricians office. Sometimes they get it and sometimes they don't. It's a hit or miss solution. Please don't jeopardize

The littlest people. They need a dental home too. This will be another example where the state board doesn't consider the patients as in the case of you don't need to be a dentist to own a dental practice so corporate can tell dentists how many crowns or pulpotomies a dentist must perform. Who suffers. The patient.
Lennie M Checchio, DDS
