Please accept this letter expressing strong support for Rulemaking 16A-4633 to enable the inclusion of Public Health Dental Hygienist (PHDHP) into both primary care *and* school based health centers in order to dramatically improve the oral health of Pennsylvania's low-income children and adolescents. With adoption of this rule, Education Plus Health would integrate a PHDHP into all 14 of its School Based Health Centers in Title one schools to improve utilization of preventive oral health care and entry into a medical home.

Please let me know if you have any questions about this support. Thanks in advance.  
Julie
