I writing in regards to the proposed Fee increases. I HAVE to be a member of the AOCR. I HAVE to be a member on the AOA. I get no choice in that. The 2 of them alone, I pay over \$1100/year. Now we are going to be have substantial increases in our PA Osteopathic medical license. Such a steep increase suggest a look at the books be made. This is a convenient time to slip such a jump in fees while we are in crisis mode here in the US. Why is there a difference in the PA medical licenses anyway? We created that as a society. There are no more DO residencies. Why are we continuing to live in the past? Let's join together as equals and all be part of the same group. More people should mean less money.

The fiduciary responsibility to each member is not to gouge their wallets, but to seek out alternatives as well. All of my fees that I have to pay, at what gain? These increases are substantial and in such a short time frame suggest finances should have been addressed before COVID-19 is distracting everyone from this proposal.

Ken Jusko, DO
