Regulation No. 54-101 (#3255)  
Pennsylvania Liquor Control Board  
Cleaning of Malt or Brewed Beverage  
Dispensing Systems

On February 28, 2020, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Liquor Control Board (Board). This rulemaking amends 40 Pa. Code Chapters 5 and 9. The proposed regulation was published in the March 21, 2020 *Pennsylvania Bulletin* with a public comment period ending on April 20, 2020. The final-form regulation was submitted to the Commission on May 10, 2021.

This final rulemaking decreases the frequency of the required cleaning of malt or brewed beverage dispensing systems from every seven days to every fourteen days.

We have determined this regulation is consistent with the statutory authority of the Board (47 P.S. § 2-207(i)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

**BY ORDER OF THE COMMISSION:**

This regulation is approved.

  
George D. Bedwick, Chairman
