Comments entered:

Please push for stronger regulations to lessen methane emissions. Think of this generation and the ones to come. After reading about shale drilling and the consequences on people's health of VOC in their air from somewhat near drilling and condensing sites, the DEP needs to regulate more. Each well's emissions should not be treated as a separate entity but as part of the total air pollution. Err on the side of public health.

No attachments were included as part of this comment.

Please contact me if you have any questions.

Sincerely,
Jessica Shirley
