Hello,

I am writing to voice my support for the Methane Rule, specifically stopping the exemption for Low Producing Wells and strengthening the restrictions on the Step-down Provisions.

Our children should be afforded every opportunity to prosper under clean environmental conditions. The methane emitted by the natural gas industry has already harmed countless Pennsylvania residents and I plead with legislature not to diminish the existing laws which have produced positive gains toward improved air and water quality.

Thank you for the consideration. Raymond L. Dandrea DDS
