Etters, PA 17319 US

Comments entered:

I suffer with asthma. I developed it after moving to Central PA. My doctor said it had a lot to do with all the particulate matter in the air here because of the Coal fired industries, energy companies and high amount of vehicle traffic coming through this area. I have noticed my symptoms getting worse and I check online for the air quality level to know if it's ok to open the windows. I have been looking for places to live with cleaner air, but they are usually in places that are more expensive to live in. The medicine I have to take so I can breath is very expensive and sometimes I can't afford it.

PA is my home and I love It! Why should I have to leave because Fossil fuel energy companies want to get rich off of our state and destroy our state in the process?

Pa should invest in Clean energy Companies which will create even better jobs!
