 Philadelphia, PA 19111 US

Comments entered:

Hi, I am a concerned citizen residing in Philadelphia, PA. I request that manganese be added to the list of toxic substances at a limit of 0.3 mg/L to protect both human health and aquatic life. Also, please adopt the second point of compliance alternative (at the point of discharge). The entity / company / operation emitting the manganese should be fully responsible for its levels in the water, so let's test for levels right at the point of discharge. I really appreciate your work in keeping our water safe for all PA residents, both human and aquatic.

Thank you,
 Boris Kerzner
