To Whom It May Concern:

On behalf of the Pennsylvania-Delaware Chapter of the American Society of Landscape Architects (PA-DE ASLA,) I write to express the Chapter's support of Proposed Regulation #16A-6112: Digital Signature and Seal, which updates current regulations on seals to be consistent with other design professional boards and incorporates the National Council of Examiners for Engineering and Surveying Model Rule on seals on documents.

While PA-DE ASLA supports the intent of the proposed regulation, we also offer the following comment for consideration:

- Given the necessity of and parameters around digital seal encryption requirements, we recommend that criteria for the proposed/required software be included in the final regulation.

We appreciate the opportunity to weigh in on this important matter. Please do not hesitate to contact PA-DE ASLA if you have questions or need clarification.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard P. Rauso".

Chapter President, PA-DE ASLA
