Comments entered:

As a PA citizen, I want to comment on the RGGI.
 I think it's a bad idea and will create more problems for an already struggling commonwealth. It will raise costs on citizens and small businesses already reeling from the covid bull[****] shutdowns, and will likely cost jobs in the energy sector, too.
 So far, Wolf has done a horrible job governing our state, he's bypassed the CONSTITUTION by dictating crappy policies without consulting the ELECTED legislation - under guise of an emergency. A never-ending, convenient (to him) "emergency" which illegally allows him all kinds of tyrannical powers.
 We all know there are no bodies piled up in this "pandemic" this is not smallpox or yellow fever, and we all know Wolf and Levine sent covid patients to nursing homes, causing the bulk of PA deaths.
 Stop this crap now, we don't need more "green" bull[****], it's a money laundering scam, the "green" industry is a propaganda machine aimed at taking taxpaying dollars and controlling us. Is pollution bad? Of course. But we don't want to be shafted with the RGGI bullcrap.
 Stop it now, enough is enough, We the People see through your fake news, your fake covid emergency, and your fake sky-is-falling end of the world green new deal RGGI bull[****].
 Have a nice day. :-)
