Pittsburgh, PA 15208 US

Comments entered:

I am in support of PA joining RGGI because I care about reducing our emissions because it directly affects climate change. The penguin species is collapsing due to ice caps melting and emissions are one of the main factors contributing to this. Consider other species at risk including our own and how all it takes is a collective change. I say we become apart of this movement towards treating our home planet with care.

Thank you
