My name is Stella Buccella and I am a resident of Philadelphia Pennsylvania. I am 68 years old and I have had the privilege of traveling throughout the United States and many places throughout the world. I have experienced the wonders that this planet has to offer us. I have also experienced the deleterious effects that humans have had on our planet. I believe it is our responsibility to the planet and future generations that we treat it well.

We are a country of geniuses and I believe we have all that is necessary to start to protect the environment more seriously. It is really on us to preserve the planet for your children and future generations.

I wholeheartedly support this regulation and trust that the powers that be will move ahead in this direction.
